SAPUI5 Separation of Innovation and Maintenance Versions

- SAPUI5 development is based on approximately yearly innovation cycles and is delivered on a quarterly basis.
- Always the last available innovation support package stack is supported during innovation phase. During that period fixes are delivered via patches.
- The last innovation version of the innovation cycle is supported for a ~2-years maintenance period as maintenance version.
- All other SAPUI5 versions are no longer maintained and there will be no patches containing fixes.

This is the current state of planning and may be changed by SAP at any time.

SAPUI5 Release Plan for HCP

Dates and Versions are current state of planning and may be changed by SAP at any time.

Thank you
